INTRODUCTION

At recent extraordinary general meetings (EGMs), investors approved our proposal to transfer the holdings of the following funds into other existing Threadneedle funds:

Existing Funds		New Funds*
Threadneedle European ex-UK Growth Fund	into	European Fund
Threadneedle Japan Growth Fund		Japan Fund
Threadneedle Pacific ex-Japan Growth Fund		Asia Fund
Threadneedle UK Equity Income Fund		UK Equity Income Fund
Threadneedle UK Growth Fund		UK Select Fund

*These funds are existing funds.

1. Why are we proposing the transfer?

We are simplifying our product range, as we believe this will better serve our investors. This is mostly an administrative change, but we expect that investors will benefit from lower fees and expenses in the new funds.

2. When are the changes happening?

The transfer will take place on 12 May 2017.

5. What are the differences between the Existing Funds and the New Funds?

As well as having similar investment aims to the Existing Funds, the New Funds will follow an identical or similar investment process. However, there are certain differences between the funds, which we explain below.

5.1 Investment objectives and policy

The investment objective and policy of each Existing Fund and its corresponding New Fund are largely the same. Although there are some differences between the descriptions of the investment policies of some of the funds, in practice, there are very few differences between the ways the funds are invested. For more details, please see the shareholder circular.

5.2 Dealing and valuation point

The Existing Funds have a dealing cut off point and valuation point of 2:00 pm whereas the New Funds have a dealing cut off point and valuation point of 12:00 noon.

5.3 Dilution levy to dilution adjustment

The Existing Funds charge a dilution levy whereas the New Funds apply a dilution adjustment. The aim of both is to protect existing fund investors from the trading costs that arise when other investors move a lot of money into or out of the fund. Dilution adjustment affects the price at which everyone buys or sells shares on a particular day, whereas the dilution levy is charged on an individual trade.

The methods of calculation differ between dilution levies and dilution adjustments. However, in the cases where we do impose a dilution levy or adjustment on particular funds or investors, it is paid back into the relevant fund.

5.4 Accounting dates and income allocation dates

There are some differences between the accounting dates and the income payment dates which are set out below:

Existing Funds			New Funds		
Fund name	Accounting dates	Income payment	Fund name	Accounting dates	Income payment
Threadneedle European ex-UK Growth Fund	31 Dec, 30 Jun	28 Feb, 31 Aug	European Fund	7 Mar	7 May
Threadneedle Japan Growth Fund	31 Dec, 30 Jun	28 Feb, 31 Aug	Japan Fund	7 Mar	7 May
Threadneedle Pacific ex-Japan Growth Fund	31 Dec, 30 Jun	28 Feb, 31 Aug	Asia Fund	7 Mar	7 May
Threadneedle UK Growth Fund	31 Dec, 31 Mar, 30 Jun, 30 Sep	28 Feb, 31 May, 31 Aug, 30 Nov	UK Select Fund	7 Mar, 7 Jun, 7 Sep, 7 Dec	7 May, 7 Aug, 7 Nov, 7 Feb
Threadneedle UK Equity Income Fund	31 Dec, 31 Mar, 30 Jun, 30 Sep	28 Feb, 31 May, 31 Aug, 30 Nov	UK Equity Income Fund	7 Mar, 7 Sep	7 May, 7 Nov

5.5 Change of administrator, custodian and depository

The administrator, custodian and depository of the Existing Funds is HSBC Bank plc. The administrator and custodian of the New Funds is Citibank N.A. and the depository is Citibank Europe plc, London branch. This is in line with the majority of the funds within our UK regulated fund range.

6. Will I pay more as a result of the transfers?

No, you will not pay more as a result of the transfer and in a number of cases, investors will pay less because of smaller fees, as set out below.

7. What are the D and L share classes?

The Class D and Class L Shares are the new share classes for investors who previously held the Existing Funds. These are “closed” share classes, which means they do not accept new investments. However, they will continue to accept payments from existing clients that currently make regular savings into the funds.

8. My clients are shareholders in the D or L class and in the legacy Class 1 or 2 shares, can they switch into the D or L class?

No, the D and L classes will be closed to all new subscriptions. Only existing regular savers in the D and L classes will be permitted to continue with their regular savings under their existing arrangements. No further top-ups or subscriptions will be accepted into these classes. For ongoing investment into the funds, you can buy Class 1, Class 2 or Class Z shares as appropriate.

Please note that the normal redemption policy applies to all the new share classes.

INVESTOR OPTIONS

9. What options do my clients have if they don't agree with the proposals?

1. You can move your investment, free of charge, to another of our funds up until 2.00 pm on 11 May 2017.
2. You can cash in your investment free of charge up until 2.00pm on 11 May 2017.

10. As ISA investors, what other options do my clients have?

If your clients do not want their investments to be transferred to the New Funds, they have the following options:

1. They can choose to switch their investment in the Existing Fund(s) into another Threadneedle Fund(s) not affected by this proposal.
2. Alternatively, they can transfer their ISA investment to another ISA manager.
3. They can cash in their investment at any time, but if they do this it will lose its ISA status.

Your clients will not incur any charges from Columbia Threadneedle if they choose any of these options.

11. Will there be a non-dealing period as part of the transfer process?

Subscriptions into the Existing Funds will be suspended from 2:01pm on 11 May 2017. This means the deadline for switching or cashing in the funds is 2:00pm on 11 May 2017.

12. What is the last day my clients can deal in the Existing Funds?

Your clients can switch or cash in their holdings until 2:00pm on 11 May 2017.

13. Can my clients still deal in the Existing Funds?

They can deal in the Existing Funds until 2:00pm on 11 May 2017. At that point, dealing in the Existing Funds will be suspended.

14. Will my clients be charged if they take their money out of the Existing Fund?

No, your clients will not be charged a fee if they choose to take their money out of the Existing Fund, although a dilution levy may be applied in certain circumstances.

THE TRANSFER

15. Can my clients already invest in the New Funds?

Your clients can already invest in shares of the New Funds. However, their existing holdings won't be transferred until 12 May 2017. Your clients will only be able to cash in their holdings from the New Funds from 15 May 2017.

16. What are the key dates?

The key times and dates are:

Last dealing day for Existing Funds	2:00 pm on 11 May 2017
Valuation point for transfer	12:00 noon 12 May 2017
First day of dealing in shares of the New Funds	15 May 2017

17. What is the tax impact of the transfer?**UK investors**

Based on our understanding of tax legislation and the tax clearances we have obtained, the transfer should not require your clients to sell any shares to meet capital gains tax requirements, whatever the size of their holding.

Also, for capital gains tax purposes, any new shares issued to your clients as a result of the transfer should have the same acquisition cost (that is, the price of the shares) and acquisition date as their existing shares.

18. Who will bear the costs associated with the transfer?

All costs and expenses relating to the proposed transfers (including the costs of calling the meetings of investors) will be met by Columbia Threadneedle Investments.

POST-TRANSFER

19. What is the first date my clients can invest / redeem after the transfer?

The first day your clients can sell or switch their shares in the New Funds following the transfer is 15 May 2017.

20. After the transfer, how can my clients find out the value, price and number of shares they hold?

Your clients will receive a post-transfer statement with details of the value, share price and number of shares they hold in the New Fund(s) after the transfer(s) has taken place.
